

Great British Spring Clean 2022: Will your town or parish council take part?

We are excited to let you know that, from today, your residents can pledge to take part, and you can now **complete our short survey** and tell us how your town or parish council will participate in the campaign in 2022.

Each year during the Great British Spring Clean, we see more and more #LitterHeroes join us. The past two years have really emphasised why local places matter, and how people are prepared to show they care.

Town or parish councils who partner with us on the campaign will receive a link to order **free Great British Spring Clean litter collection bags**. We will also share a **partner pack**, from 12 February, to help you promote the campaign locally. This will contain social media assets, posters, and a press release.
