from the 17 March, 2025 to 15 September, 2025 inclusive or until completion of the works, whichever is the earlier.

The closure will be put into effect when necessary by means of the erection of notices and signs. It is anticipated that the restrictions will be effective in phases for a two-week period during these dates.

The Order is necessary for reasons of public safety to allow for works to be executed on and near the public rights of way and to protect the integrity of the area during construction and operation. It is expedient that a number of temporary closures of public rights of way are required.

An alternative route may be used during the closure period where appropriate, which will be shown on the plans displayed on site.
